

Press Release: iRent Announces New Integration For SURE Renters Insurance

New enhancement enables tenants on the iRent platform to quickly purchase renter's insurance via SURE's insurance marketplace. Palo Alto CA, November 28, 2017.

Palo Alto, CA, November 28, 2017 – iRent Corp., acclaimed provider of high performance Property Management Software for Property Owners and Management Firms, announced the immediate availability of an enhanced pre-built integration for SURE's Renter's Insurance Platform.

While enhancements were made across the entire platform, the Fall Release of iRent focuses on expanding iRent's Tenant Portal. It includes dozens of new features and capabilities, including:

- **The Ability to purchase Renters Insurance via SURE.** Tenants can log into their property's website, and get immediate quotes for renter's insurance. SURE partners with multiple providers to offer the best renter's insurance option on the market at that time. If the tenant accepts the quote, they can secure the insurance immediately.
- **Support for Property Management Firm Websites.** iRent traditionally allows customers to create full property websites that allow users to promote their properties, accept applications and interact with exiting tenants. For customers that have fewer units, but many properties, it's often more efficient to rely on a single consolidated website rather than creating a website for every property. With the latest release, users can now embed both the application and/or the tenant portal within a single Property Management Website, simplifying things for the Property Manager.
- **The Ability to view tenant statements, and pay rent online.** Tenants can log into the tenant portal to view their statement and pay their rent online via credit card or ACH transfer.
- **The Ability to view past and submit work orders online.** Tenants can communicate with Property Managers by entering work orders (leaky faucets etc.) online. The work orders are tracked online, and every time the status changes, the tenants are notified via email.

iRent's Fall Release is the eighth update this year and increases iRent's strength in helping mid sized property management organizations to become more proactive and scalable in their day to day operations. This commitment to product evolution has been a key component of iRent's rapid growth.

Timothy Scott, iRent's VP of Product Strategy, commented, "The tight integration between iRent's Tenant Portal and SURE's insurance marketplace makes purchasing renters insurance as easy as ordering take out." After logging into the Tenant Portal, and clicking on the Renter's Insurance tab, all of the tenant information is pre-populated into the insurance application. Tenants can literally obtain a quote in a minute or two.

"Often tenants don't purchase renter's insurance because they don't know where to get it. By integrating the SURE solution into iRent, we're making renter's insurance more accessible to tenants.", said XXXX of SURE.

iRent's Fall Release is available to all existing and future clients today. For more information, visit www.myirent.com

About iRent

iRent® offers a complete, web based (SaaS), Property Management Solution which enables property managers and owners to manage multi-family and commercial properties. iRent allows managers maximize profits through features like auto tenant billing of both rental and late fees.

iRent allows users to develop prospects into tenants including tenant screening. Accounting features allow users to track tenant payments, vendors. A full reporting module with 40+ prebuilt reports, allows you to view and export rent rolls, profit and loss statements and traffic sources

The screenshot shows a web browser window with multiple tabs. The active tab is titled "Big Blue" and shows the URL "https://www.myirent.com/rent/tenantPortal.cfm?m=7&p=11&l=1&tid=4907". The browser's address bar and search bar are visible. Below the browser window, a navigation menu includes "Tenant Statement", "Work Orders", "Pay Online", "Renters Insurance" (which is highlighted), and "Preferences". On the right side of the menu, there are links for "My Account" and "Logout".

Below the navigation menu, a text message reads: "Big Blue recommends that you have renters insurance to protect your property. If you're interested in getting a quote on renters insurance, just follow the prompts below."

The main content area features a blue header with a house icon and the text "Renters Insurance". Below this, it says: "Tell us about you and your place. Earn discounts based on your details. Get your quote, then get your policy."

The form is titled "What is your address and personal information?". It contains several input fields with the following text:

- 719 Scott Street
- 2-717
- Wichita Falls
- TX
- 76301
- Ted
- Middle Name (optional)

SURE embedded within iRent's Tenant Portal.
